IPFW MBA+ GMAT and GRE Waivers for Admission

An MBA+ applicant may request a waiver of the GMAT or GRE if the applicant meets any ONE of the following conditions:

- Has 3+ years of progressively-responsible, professional work experience and a 3.0 cumulative undergraduate GPA.
- Completed an undergraduate business or engineering degree from an AACSB-or ABET-accredited program within the previous 5 years with 3.0 GPA.
- Completed a graduate degree from a regionally accredited US-based institution, or an equivalent international degree.
- Passed all portions of any of the following certification exams: CAS, CFA, CFM, CMA, CPA, FRM, SOA, or a state bar exam.
- Is a member of the US armed services with 3+ years of service, or an honorably discharged veteran.
- Is a full-time, regular employee of the Purdue system with a letter of recommendation from a supervisor or department/unit head who is familiar with the applicant’s work.

The Graduate Policy Committee (GPC) reserves the right to require the GMAT, GRE or other approved assessment of any graduate program applicant, even if the applicant meets one of the conditions above. The committee may do this when additional information is required to make an admission decision.

Also, the GPC may consider GMAT and GRE scores submitted to the School, even if the applicant qualifies for a waiver.

The applicant should submit the waiver request form with his or her application. To request a waiver form or ask a question concerning the waiver policy, please contact us at remenscm@ipfw.edu or stumphc@ipfw.edu.
